About Pitstop Coffee Bar

In May of 2017, MAAP's Pitstop Coffee Bar opened its doors to serve some of the best coffee in town! Just ask our staff and student interns! Two reasons for our extraordinary coffee are the beans we roast and the equipment we use. Our beans are fair-trade sourced and brewed on one of the only authentic Italian Espresso machines in the United States, which makes for the best lattes and cappuccinos. You will taste the difference!

The way we steam our milk, makes a frothy and warm consistency, perfect for latte art! Our passion for Cars and Coffee make a great combination and we hope you enjoy it as much as we do. We believe that sharing our passion with people like you will bring forth new friendships. We love seeing new faces and are so glad you stopped by! We hope you will come back to see us soon.

-Your friends at MAAP
